Commissioner for Patents  
**BOX REISSUE**  
P.O. Box 2327  
Arlington, Virginia 22202

Sir:

**DECLARATION OF ANDREW WOLF  
AND PETITION FOR REISSUE**

I, Andrew Wolf, hereby state that I am the patentee of U.S. Patent No. D448,441, issued September 25, 2001. I hereby offer to surrender U.S. Patent No. D448,441, and request that a patent be reissued for the same invention upon the amended specification submitted herewith.

I have reviewed and understand the contents of the above-identified specification and claim, as amended. I believe that I am the sole, original, and first inventors of the subject matter which is claimed and for which a patent is sought.

I believe U.S. Patent No. D448,441 to be partly inoperative by reason of a defective specification. The error upon which reissue is based is that the following priority claim was inadvertently omitted from the patent application: "This application is a

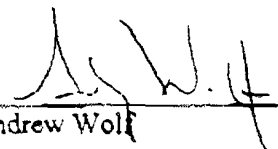

continuation of and claims priority under 35 U.S.C. § 120 to U.S. Patent Application Serial No. 09/798,502, filed March 1, 2001, and to U.S. Patent Application Serial No. 09/518,231, filed March 2, 2000, now issued as U.S. Patent No. 6,290,249." The addition of this priority claim will overcome the partial inoperativeness of the patent.

I believe that the above mentioned error arose without any deceptive intention.

I acknowledge that I have a duty to disclose information of which we are aware which is material to the examination of this application for reissue of U.S. Patent No. D448,441 in accordance with Title 37, Code of Federal Regulations § 1.56.

I hereby declare that all statements made herein of my own knowledge are true and that all statement made on information and belief are believed to be true, and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
